Profile Summary

Software Engineer with hands-on experience in Python, React.js, AI/ML, and Full-Stack Development. Built machine learning and web applications using TensorFlow, Streamlit, React.js, Node.js, PostgreSQL, and MySQL. Passionate about developing scalable software solutions and continuously learning emerging technologies.

Education

Parul University, B.Tech in Computer Science Engineering - Artificial Intelligence, Vadodara, Gujarat - 391760 — July 2022 - May 2026

Sri Chaitanya Junior College, Intermediate - MPC, Eluru, Andhra Pradesh - 534007 — July 2020 - May 2022

Vignan Global Gen School, Secondary - 10th, Eluru, Andhra Pradesh - 534007 — July 2019 - May 2020

Skills

- **Languages**: PYTHON, REACT.JS, JAVASCRIPT, HTML, CSS
- **AI/ML & Databases**: Generative AI, AI & ML, CNN, OpenCV, NumPy, Pandas, MySQL, PostgreSQL, MongoDB
- **Tools & Coursework**: Git, GitHub, RESTful APIs, Postman, JWT, SDLC, MS Excel, PowerBI, DSA, DBMS, DAA

Work Experience

Edunet Foundation - Green Skills AI Intern — July 2025 – December 2025

- Built a Streamlit-based learning platform using Python and MongoDB with topic-wise content, interactive quizzes, and performance tracking.

Varcode Edtech Private Limited - Frontend Developer Intern — March 2025 – April 2025

- Developed a responsive education platform using React.js, HTML, CSS, and JavaScript for managing learning resources.

Projects

Brain Tumor Diagnosis Using CNN

- NeuroVision AI is a Streamlit-based deep learning platform that detects, classifies, and localizes brain tumors from MRI scans with explainable insights and downloadable reports.
- Tools Used: PYTHON, STREAMLIT, CNN, TENSORFLOW, YOLOV8, OPENCV, NUMPY, PANDAS, MATPLOTLIB

Golden Restaurent

- Developed a Restaurent Management Web Application where multiple users can simultaneously book tables, birthday halls, events.
- Tools Used: JAVASCRIPT, HTML, CSS, BOOTSTRAPS

Team Task Manager

- A full-stack web application that enables teams to organize workflows by managing projects, assigning tasks, and tracking progress through Admin and Member roles.
- Tools Used: React, Vite, React Router, Node.js, Express.js, PostgreSQL, JWT

Certifications

- Introduction to Software, Programming, and Databases - IBM
- Generative AI Prompt Engineering - IBM
- SAP Technology Consultant - SAP
